

YARN JUMPER BRAIDS

Step one: Braid down the mane in small sections with yarn as though you are going to do hunter braids.

Step two: With your 'pull through' tool loop the braid in back up through itself on the bottom side.

Step three: Tightly roll the bottom of the braid up to the top.

Step four: Secure the braid with a knot above and below the braid.

Step five: Trim the tails of the yarn.
